## Older People Live Longerchinese Edition

**happy people live longer: subjective wellbeing contributes ...** - happy people live longer: subjective well-being contributes to health and longevity aphw\_1045 1..43 ed diener\* university of illinois and the gallup organization, usa **global health and aging - who** - population and people living longer, older people are making up an increasing share of the total population. in more developed countries, fertility fell below the replacement rate of two live births per woman by the 1970s, down from nearly three children per woman around 1950. even more crucial for population aging, fertility fell with surprising speed in many less developed countries from an ... **why population aging matters** - as people live longer and have fewer children, family structures are transformed, leaving older people with fewer options for care. I patterns of work and retirement are shifting. shrinking ratios of workers to pensioners and people spending a larger portion of their lives in retirement increasingly strain existing health and pension systems. I social insurance systems are evolving. as social ... **age uk: evidence review- loneliness and isolation** - citizens live 4 independently but are not independent; they are interdependent on family members, work colleagues, friends and social networks. putting people first (december 2007) 1 putting people first is a concordat signed by six central government departments, the nhs, local government, professional bodies and regulators, and adult social care and health providers across all sectors. it is ... **china country assessment report on ageing and health** - 2.2 dependence in older people: a key public health problem 7 2.3 physical function and impairments 8 3. chronic disease and health risks 11 3.1 burden of chronic (noncommunicable) disease in china 11 3.2 prevalence of chronic disease and risk factors in older people 12 3.3 chronic disease risk factors 15 4. disparity in life expectancy and health service use 20 4.1 disparity in life ... **the care of frail older people with complex needs: time ...** - the care of frail older people with complex needs: time for a revolution 4 social status, and there is widespread acceptance of these very poor working conditions that would be unthinkable for staff in other areas of health care. **demographics, aging and income protection** - chinese to remain big savers despite government efforts to boost domestic consumption." mathew burrows, atlantic council china is 'aging' five times faster than france did. what does that mean for the rest of the world? france's share of population 65 years and older doubled over a period of 115 years. china's share of the population 65 years and older reached the seven percent mark ... **strategic plan: population - lothian** - but people in east lothian and edinburgh live longer than people in west lothian and midlothian and the most affluent people in lothian live longer than the least affluent people irrespective of where they live. **perceptions of living alone among older adult women** - perceptions of living alone 127 alone seem to be no less healthy than other older adult women, and some studies even find that they are healthier than their counterparts who live with others. **the relationship between wellbeing and health** - affect wellbeing most but longer-term chronic ill health also has an effect on wellbeing4. • the relationship between health and wellbeing is not just one-way - health influences wellbeing and wellbeing itself influences health. **social isolation and loneliness among older australians** - one such challenge is understanding and combating social isolation and loneliness among older people. as australians live longer, it is important to ensure they are given every opportunity to enjoy quality of life, as well as quantity of life. asas members support hundreds of thousands of older people in metropolitan, regional, rural and remote areas of australia every day. they are committed ... **loneliness - evidence of the effectiveness of interventions** - interventions to address loneliness may be addressed directly at an individual, at groups of people or at the neighbourhood or environment in which those people live. 1 iliffe s et al (2007) health risk appraisal in older people 2: the implications for clinicians and commissioners of social isolation risk in older people, british journal of **statistics fact sheet - macmillan cancer support** - the number of older people (aged 65 and over) living with cancer has grown by 23% in the five years to 2015 3 . the number of older people (aged 65 and over) living with cancer is set **the health of the elderly in hong kong - hku libraries** - elderly in our community can live in dignity, with help and encouragement to maintain their health and to continue to participate fully in the life of the community.
